Detailed Action

This is the Office Action corresponding to original filing. The application contains 18 claims.

Information Disclosure Statement

Receipt is acknowledged of Information Disclosure Statements, which have been reviewed by the Examiner.

Drawings

Figures 12-14 should be designated by a legend such as --Prior Art-- because only that which is old is illustrated. See MPEP § 608.02(g). Corrected drawings in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. The replacement sheet(s) should be labeled "Replacement Sheet" in the page header (as per 37 CFR 1.84(c)) so as not to obstruct any portion of the drawing figures. If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Claim Rejections - 35 USC § 112

Claims 1-18 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

It is not clear if Applicant wants to claim the subcombination of an elevator device for being use with a television camera (see first line of claim 1), or the combination of an elevator device and a television camera (see claim 1, line 4). Applicant must amend the claims to clearly recite one, or the other. For the purpose of this action, the claims are addressed as subcombination claims.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-4 are rejected under 35 U.S.C. 102(b) as being anticipated by instant figures 12-14. Please note that these figures disclose all the recited elements of claims 1-4, as recited in paragraphs 2-8 of the instant specification.

Allowable Subject Matter

Claims 5-18 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Newkirk (7,065,812), Jeon (7,134,634) and Huh (7,059,592) show vertical adjustable supports of interest.
